

Inland Mendocino Cooperative Weed Management Area ... Fact Sheet and Weed Resource Guide

- is a partnership of government agencies, commercial and community organizations;
- has the mission to prevent and minimize harm from invasive plants cooperatively through integrated pest management;
- formed in 2006 as one of the newest of California's 50 WMAs;
- is not a weed control service, However, the IMCWMA...
- does provide weed management education and technical support;
- may assist in obtaining matching funds for high-priority weed control projects;
- encourages prevention of weed introduction and dispersal;
- supports early detection of new weed infestation followed by eradication;
- has funding for eradication of distaff thistle, a yellow starthistle look-alike with spiny leaves.
